#### GENERAL INFORMATION ON AVERAGE ADJUSTED GROSS INCOME - PART A

Individuals or legal entities that receive benefits under most programs administered by CCC cannot have incomes that exceed a certain limit set by law. For entities, both the entity itself, and its members cannot exceed the income limitation. If a member, whether an individual or an entity, of an entity exceeds the limitation, payments to that entity will be commensurately reduced according to that member's direct or indirect ownership share in the entity. (All members of the entity must also submit this form to verify income the limitation is met.)

Adjusted Gross Income is the individual's or legal entity's IRS-reported adjusted gross income consisting of both farm and nonfarm income. A three-year average of that income will be computed for the three years of the relevant base period identified on the first page of this form to determine eligibility for the applicable program year. Individuals or legal entities with average <u>adjusted gross income</u> greater than \$900,000 shall be ineligible for all payments and benefits under the commodity, price support, disaster assistance, and conservation programs.

#### HOW TO DETERMINE ADJUSTED GROSS INCOME (AGI)

Individual – Internal Revenue Service (IRS) Form 1040 filers, specific lines on that form represent the adjusted gross income and the income from farming, ranching, or forestry operations.

Trust or Estate – the adjusted gross income is the total income and charitable contributions reported to IRS.

Corporation - the adjusted gross income is the total of the final taxable income and any charitable contributions reported to IRS.

Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity – the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS.

Tax-exempt Organization – the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.

#### HOW TO DETERMINE AVERAGE ADJUSTED GROSS INCOME

The period for calculation of the average AGI will be of the three taxable years preceding the most immediately preceding complete taxable year for which benefits are requested. This table shows examples for applicable years to be used in determining average AGI.

IF the crop year is	THEN Average AGI will be based on the following years
2019	2017, 2016, and 2015
2020	2018, 2017, and 2016
2021	2019, 2018, and 2017
2022	2020, 2019, and 2018
2023	2021, 2020, and 2019

#### GENERAL INFORMATION ON CONSENT TO DISCLOSURE OF TAX INFORMATION - PART B

This consent allows IRS's access to, and use of, certain items of return information to perform calculations, using a methodology prescribed by the USDA, that will assist USDA in its verification of a program participant's compliance with the adjusted gross income (AGI) limitations necessary for participation in, and receipt of, commodity, conservation, price support or disaster program benefits. This consent also permits the USDA to receive certain items of return information for its eligibility determination.

This consent authorizes the disclosure of these items of return information for only the time period specified. Each item of information requested on this form is needed for the IRS to (1) locate, and verify, your tax information; (2) perform the requisite Average AGI calculations; and (3) provide the USDA with the legal entity's name and Taxpayer Identification Number (TIN), the type of return from which the specified items were located for use in the calculation, and whether or not the average AGI is above or below eligibility requirements. The IRS will not provide the USDA with any of the items specified on this consent form that it uses to perform the calculations or the average AGI figure.

This form can only be signed by the person authorized under state law to sign this consent for the legal entity identified in Item 2. <u>An approved Power of Attorney (Form FSA-211) on file with USDA cannot be used as evidence of signature authority when completing this form.</u>

#### HOW TO DETERMINE ADJUSTED GROSS INCOME

Adjusted Gross Income (AGI) is the individual's or legal entity's IRS-reported adjusted gross income or equivalent (see below) consisting of both farm and nonfarm income.

Individual – Internal Revenue Service (IRS) Form 1040 filers, specific lines on that form represent the adjusted gross income

Trust or Estate – the adjusted gross income equivalent is the total income and charitable contributions reported to IRS

Corporation – the adjusted gross income equivalent is the total of the final taxable income and any charitable contributions reported to IRS

Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity – the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS

Tax-exempt Organization – the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.

#### HOW TO DETERMINE INCOME FROM FARMING, RANCHING, AND FORESTRY OPERATIONS

Income received or obtained from the following sources:

Feeding, rearing, or finishing of livestock.
Payments of benefits, including benefits from risk management practices, crop insurance indemnities, and catastrophic risk protection plans.
Sale of land that has been used for agricultural purposes.
Payments and benefits authorized under any program made available and applicable to payment eligibility and payment limitation rules.
Any other activity related to farming, ranching, and forestry, as determined by the Deputy Administrator of FSA.
Any income reported on Schedule F or other schedule used by the person or legal entity to report income from such operations to the IRS

Beginning in program year 2020, wages or dividends received from a "closely held" corporation, an IC-DISC or a legal entity comprised entirely of family members may be considered farm income when the legal entity is "materially participating" in farming, ranching or forestry activities.. "Materially participating" means more than 50 percent of the legal entity's gross receipts for each tax year are derived from farming, ranching or forestry sources. A representative of the legal entity must attach a certification to form CCC-942 attesting that the legal entity "materially participates" in a farm, ranch or forestry activity.

#### HOW TO DETERMINE PERCENTAGE OF AVERAGE AGI FROM FARMING, RANCHING, AND FORESTRY OPERATIONS

- 1) Determine the total AGI and the total income from farming, ranching, and forestry for each of the 3 taxable years preceding the most immediately preceding complete taxable year for which benefits are requested.
- 2) Total the AGI (both farm and nonfarm income) from all 3 years.
- 3) Total the income from farming, ranching and forestry from all 3 years.
- 4) Calculate the percentage of average AGI income by dividing the result of step 3 by the result of Step 2. The percentage calculated must be equal to; or greater than 75 percent to qualify for program benefits.

This form can only be signed by the individual authorized under state law to sign as a representative of the legal entity identified in Item 3.
